A farmer's daughter from Abergavenny, Cerys is most at home surrounded by baaing sheep and rolling hills.

Being from a sales background, Cerys is relishing her new role as Project Co-Ordinator at Sero. After taking 9 months off to welcome her first child into the world she decided it would be a good time for a change in career to add to her other huge life changes (she also decided to move house at the same time!).

From the age of 17, Cerys pursued a career in sales undertaking an apprenticeship as a Travel Advisor before moving on to insurance sales, quickly becoming the top sales person in the UK.

In her early twenties Cerys decided to take a break from the rat race and embarked upon a four year adventure on the island of Corfu where she made lifelong friends and gained another language, becoming trilingual!

With her feet firmly back on the green green grass of home, Cerys got straight back to the grind and managed a successful estate agency in the heart of Newport for five years before eventually joining the Sero family.

When she's not assisting the team with new and creative ways of saving the world one kg of carbon at a time, she loves nothing more than trying new recipes in the kitchen, some of which turn out to be edible!
