

Victoria Jacques

Project Assistant

Email: victoria@sero.life

Visit: sero.group

Victoria is a member of the Optimised retrofit team joining as a project assistant, on the delivery of the pathfinder project. Having a passion for sustainable technology, when her youngest daughter started school alongside her full-time job, she decided to embark on her education journey. Starting with a HNC/HND Construction and the Built Environment she then moving on to a BSC in Project Management and Surveying. While studying for her degree she worked as an Assistant formwork Designer producing technical 2D and 3D designs for major projects such as Hinckley point C and Luton Airport.

Outside of work Victoria Lives in Langstone with her Husband, 2 Daughters and 2 Cats. She enjoys going to her families holiday home in Cenarth, renovating houses and attending the ice hockey.
